AREA 1: VISION, MISSION, GOALS AND OBJECTIVES

The Area of Vision, Mission, Goals and Objectives is the most fundamental of all the ten (10) areas to be surveyed. Everything in the institution is justified only to the extent that it realizes its vision and mission. It is essential therefore, for the Institution to formulate the vision and mission which should be the bases of all its operations. The Institution is judged by the degree to which these are attained, not in comparison with others.

A. Statement of Vision, Mission, Goals and Objectives

The Vision is the state the Institution hopes to become in the future. The MGO represents the hierarchy of aims of the Institution. The Mission reflects the mandate/aim of the whole state university or state college. The Goals are the aims at the hierarchical structure below the Institutional level (the academic Unit/Institute/School); and the Objectives are the aims at the program level i.e., what the program hopes to achieve.

The Institution shall define its mission in accordance with its legal and educational development mandate and the thrusts of the government.

The program outcomes are the foci of program accreditation. These are the competencies (knowledge and skills), values and other attributes, which the Institution hopes their graduates shall acquire to enable them to compete for employment, locally and internationally.

B. Dissemination and Acceptability

It is expected that the Institution disseminates, and work for the acceptance of the Vision, Mission, Goals and Objectives by the stakeholders. In order to facilitate awareness and acceptance, it is a good practice that the faculty, non-teaching staff, students, linkages, the community, and other stakeholders are involved in the formulation, review and/or revision of the VMGO.

An outcomes-based assessment will focus on the extent to which the program objective are attained as shown in the outcomes. Thus, there must be a common understanding and acceptance of the end results of the program by both the faculty and the students.

It should be demonstrated that the program objectives (outcomes) are consistent with the College goals; and the College goals with the Mission of the Institution. On a long-term perspective, the accomplishment of the Mission will lead to the realization of the Vision of the Institution.

The following documents, additional information and exhibits will be useful in evaluating this Area, and should be made available at the Accreditation Center;

1. Billboards installed for the purpose of disseminating Vision, Mission, Goals and Objectives (VMGO);
2. Bulletin of Information;
3. Bulletin, brochures, catalog, manuals, print and other media;
4. Documents/Materials containing statement of VMGO;
5. Minutes of meetings conducted to formulate, review or revise VMGO;
6. Programs and activities showing students' participation in the dissemination of the VMGO;
7. Research work/study conducted showing awareness and acceptance of the VMGO;
8. SUC Charter; and
9. University/College Code.
